

Cambria Freeman.

EBERSBURG, PA. THURSDAY, APRIL 15, 1869.

The Freeman's Critic.

We cannot consent to conduct the Freeman in accordance with the programme laid down for us in the last Johnstown Tribune. We prefer acting on our own judgment rather than on its gratuitous advice.

If the Washington correspondent of the Tribune will address a letter to "Mat. Adams," who is an honorable man, asking him to compromise his political integrity, he must expect to be exposed.

It will be remembered that the propositions to increase the pay of the members of the legislature from a thousand to fifteen hundred dollars came from a democrat from Montgomery county named McMiller.

A Model Appointment.

A great deal of clamor was raised against Andrew Johnson because he appointed a few men to office who subsequently proved to be dishonest.

For several years James M. Ashley has represented the Toledo (O.) district in Congress. He was defeated last fall by a democrat.

"Now, Frank, this is the best office, in my judgment, in the gift of the President, and I would resign to-day if I were sure I could keep it four years."

"I have drawn up the enclosed agreement, which I wish you would sign and keep; and copy one just like it, sign it and forward, and return the other agreement."

Some Facts about Dogs.

"Did the reader ever count the cost of the dogs in the country? The cost of their keeping, the value of the sheep and other animals killed, and worried and the quarrels and lawsuits occasioned by them? It is possible to estimate the cost of hydrophobia in a single human subject. To the extent of their exceptions, the usefulness of dogs should be credited, but what figures shall we place in the long account against them?"

Caught at Last.

It will be remembered that the propositions to increase the pay of the members of the legislature from a thousand to fifteen hundred dollars came from a democrat from Montgomery county named McMiller.

It seems that this infamous business has been engineered through the legislature by Peter Herlic, a wealthy and unscrupulous man from Lycoming county, who has a personal object in view.

Hold tightly, retels and in concert how! Let hissing serpents make that spot their home and be the watchful guardians of his tomb!

Moffatt and Myers.

Dr. John Moffatt, who was elected to Congress from the third Philadelphia district last October, was ejected from his seat last Friday.

Harrisburg Correspondence.

HARRISBURG, April 10, 1869. Dear Freeman—The bill entitled an act to establish an additional Court in Cambria county has passed the House and is now in the Senate, where it is likely to pass next week.

These questions were asked by an intelligent writer in 1868, in an article on "Dogs and Dog Laws." In 1868 the number of dogs in the States not in rebellion was estimated from reliable data at three millions.

It is not difficult to see that these are in the United States to-day four millions of dogs and in Pennsylvania about three hundred and fifty thousand, or one dog to every clear inhabitant.

PHILADELPHIA, April 9.—Although Eaton and Twitchell are both dead, the manner of their death, the bearing of the men and the probabilities of their innocence or guilt still continue to be the subject of general discussion.

The Malaria of Spring.

Everybody should now be on their guard against the great danger of disease arising from malarious causes. Fever and ague prevails to an alarming extent every Spring in every part of the country, and many persons are easily predisposed to it on account of some impudence during the winter months.

THE LATEST NEW THING.—It is an India rubber carriage. The patent has been obtained. A company has been organized and the first vehicle has been turned out and is now on exhibition in New York, attracting rubber promises to work a complete revolution in the manufacture and cost of carriages.

The Hill Murder.

PHILADELPHIA, April 11.—The Twitchell case still excites much interest here. The Sunday Transcript publishes to-day an interesting and authentic detail of the history of the family not heretofore printed.

At the outset it may be well to remind our readers that on the day of the inquest she appealed to her husband to tell what he knew of the murder, and that if he were guilty to set like a man and relieve her.
